PROFILE

I am a Junior FullStack Developer with a great liking for web development. From a young age I wanted to learn more about technology and that's where my interest in programming arose. I like to think of creative and innovative solutions to problems. I am always ready to learn more and demonstrate my skills. In addition to programming, I am interested in photo and video editing, music, arts and meeting new people.

SKILLS

- HTML + CSS
- JavaScript
- React
- Node.js
- Express.js
